

Titolo del progetto	Efficient Integrated Security Checkpoints
Acronimo	EFFISEC
Descrizione del progetto	<p>To deliver to border authorities more efficient technological equipment:</p> <ul style="list-style-type: none"> • providing higher security level of identity and luggage control of pedestrians and passengers inside vehicles, at land and maritime checkpoints; • while maintaining or improving the flow of people crossing borders; • and improving work conditions of border inspectors, with more powerful capabilities, less repetitive tasks, and more ergonomic equipment. <p>EFFISEC will provide border officers with up-to-dated technologies:</p> <ul style="list-style-type: none"> • allowing systematic in depth controls of travellers, luggage and vehicles, for pedestrians and people inside vehicles, through the use of automatic gates and portable identity check and scanning equipment; • providing objective criteria for submitting some travellers/vehicles/luggage to an extensive check in specific lanes. <p>Based on a detailed analysis of the operational requirements for all types of borders, EFFISEC will focus on four technical key issues: documents and identity check, detection of illicit substances, video surveillance and secured communications.</p>
