

Soggetto coordinatore	Tecnoalimenti
Titolo del progetto	Integrated System for a reliable traceability of entire food supply chains
Acronimo	TRACEBACK
Descrizione del progetto	Assuring total traceability of food and feed along the whole chain from production to consumption is a cornerstone of EU policy on the quality and safety of food. This is a complex procedure involving identification, detection and processing of a vast amount of information. The Integrated Project TRACEBACK, coordinated by Tecnoalimenti, is developing an innovative system based on micro-devices to implement 'ideal' food traceability in the European food chain. Twenty-eight partners (51% of industrial nature) active in food research and the food industry throughout Europe have teamed up with two from Egypt and Turkey, plus relevant SMEs, to develop and demonstrate the system.
TA/SG	SG 11
Riferimento Bando	FP6- KBBE-2005- FOOD
Valore del progetto	€ 15.000.000,00
Pubblicazioni	Food chain integrity - A holistic approach to food traceability, safety, quality and authenticity. Edited by Hoorfar, Jordan, Butler, Prugger Woodhead Publisher, London, 2011 Contiene un capitolo sulla security "Preventing and mitigating food bioterrorism" di N. Marmiroli et al.
